Overall feedback

Hi Henri,

Thank you for your review. Your feedback was fair and accurate and maintained a professional tone throughout. The positives touched on what the student did well with regard to the goals of the task as well as what stood out to you such as them going the extra mile and styling out their HTML. The improvements sections highlighted and elaborated on the score loss as well as added other useful feedback the student can keep in mind going forward.

Solid review here, Henri.

Kind regards,
Layne
